Index to Volume XLIV.

SUBJECT INDEX.

A

Acid-Resisting Steels, Fabrication of, 10.
Agriculture and the Foundry Industry, 50.
Alloying Element, Silicon as an, 397.
Alloys for High-Temperature Service, Cast, 387.
Aluminium-Alloy Casting, Production of an, 3, 392.
Aluminium Alloys, Pointers in the Use of Modified, 372.
Aluminium and its Alloys, Surface Treatment of, 301, 329.
Aluminium Chill Casting, Accelerated, 186.
Aluminium, Electric Annealing of, 244.
Aluminium-Founding Developments in 1930, Some, 47.
American Foundrymen's Association, Programme of Chicago Convention, 281.
American Motor-Cylinder Foundry, Operating Details of an, 291.
Annealing of Aluminium, Electric, 244.
Apprentice, Vexed Question of the Foundry, 159.
Atmospheric Moisture in Cupola Blast, Effect of Excessive, 375.

B

Blackings and Coal Dust, 39.
Blast, Effect of Excessive Atmospheric Moisture in Cupola, 375.
Blast Furnace at Dagenham, New Ford, 69.
Blast Furnace, Elimination of Sulphur in the Cold-, 154.
Blast-Furnace Reactions and the Production of Pig-iron, 258.
Block Patterns and Cores, Use of, 214.
Brackelsberg Furnace at Bingley, 257.
Brackelsberg Process for the Production of Grey Iron, 287.
Brass Valve Castings, 38.
Brass Water Vessel, 148.
British Industries Fair, 139.
British Ironfounders' Association, Meeting at York, 231.

C

Carbon and Silicon on the Growth and Scaling of Grey Cast Iron, Effect of, 338.
Carborundum, Story of, 197.
Cast Alloys for High-Temperature Service, 387.
Cast Iron and Foundry Practice in Great Britain, Recent Developments in, 436.
Cast Iron between 0 and 100 deg. C., Thermal Conductivity of, 405.
Cast Iron, Commercial Tests for, 273.
Cast Iron, Cupola Malleable, 83, 102, 125.
Cast Iron, Molten, 159.
Cast Iron on Repeated and Prolonged Heating, Deterioration of, 271.
Cast Iron, Present Position of Nickel, 41.
Cast Iron, Recent Developments in Special, 355.
Cast Iron, Researches in, 180.
Cast Iron to Gas at High Pressures, Permeability of Grey, 194.
Cast Materials for High-Temperature, High-Pressure Service, Some Considerations and Tests for, 399.
Cast-Steel Diving Bell for Deep-Sea Operations, 189.
Casting, Moulding a 2-Ton Press Body, 155.
Casting, Production of an Aluminium-Alloy, 3, 392.
Castings, Gating Iron, 242.
Castings, Some Notes on Enamelling, 246.
Castings, Testing, 207.
Castings, X-Ray Examination of, 23.
Chill in Chilled Moulds, Preventing Uneven, 414.
China's Iron Industry, 70.
Ciment Fondu for Cupola Repairs, Use of, 138.
Clutch in Dry Sand, Making a Large External Part of a Friction, 263.
Coal Dust, Blackings and, 39.
Coke, Properties and Application of, 131.
Cold-Blast Furnace, Elimination of Sulphur in the, 154.
Cold-Blast Furnace, Reactions in the Shaft of the, 245.
Condenser Shell, Making a, 407.
Conductivity of Cast Iron between 0 and 100 deg. C., Thermal, 405.
Copper? Still Cheaper, 256.
Cores, Use of Block Patterns and, 214.
Correspondence:—
Alloying of Iron in the Blast Furnace, 236.
Apprentice Training, 286.
Belgian Sand and Steel Castings, 189, 204.
Blast-Furnace Reactions, 204, 236.
Castings *versus* Weldings, 100.
Commercial Tests for Cast Iron, 300.
Corsalli Process, 172.
Cost of an Order, 364.
Cupola-Melted Malleable Cast Iron, 286, 300.
Elasticity and Plasticity, 412.
Foundry Research Work, 282.
Furnace Goggles, 18.
London Iron and Steel Exchange, 382.
Malleable Cast Iron, 189, 222, 252.
Molybdenum Rolls, 172.
Non-Corrosive Metal, 2.
Ore Size and Speed of Malleabilising, 252.
Pity the Poor Lecturer, 154.
Railway Classification of Grey-Iron Castings, 205.
Railway Electrification and the Foundry Trade, 364.
Selling Practice, 222.
Small Fry, 18.
Soda Ash in the Foundry, 318, 334.
Steel Industry and Tariffs, 300.
Costing, Foundry, 177.
Costs, Factors Influencing Production, 157.
Crane-Bennett, Limited, Foundries of, 239.
Cupola, Experiments with Fuel Oil in the, 354.
Cupola Limestone, 182.
Cupola Malleable Cast Iron, 83, 102, 125.
Cupola-Melted Material with a 1 per cent. Carbon Content, New, 144.
Cupola Melting, Influence of Excess Moisture on, 167.
Cupola Mixtures, with Special Reference to "Perlit" Cast Iron, Graphic Calculation of, 351.
Cupola Repairs, Use of *Ciment Fondu* for, 138.

D

Daimler Company, Foundries of, 433.
Degasification Process, 264.
Deoxidation of Steel, 114.
Design and Foundry Practice, Patternmaking and its Relationship to, 253.
Desulphurising and Refining of Grey Cast Iron with Soda Ash, 305.
Deterioration of Cast Iron on Repeated and Prolonged Heating, 271
Die Casting, 223.
Drying Stove, Novel, 385.

E

Ecuador, Selling Light Castings in, 366.
Electric Steel, World Output of, 350.
Electrical Industry, Foundry in the, 53.
Electrical Plant, Purchasing, 106.
Electrical Repairs in the Foundry, 22.
Electrodes for Welding Cast Iron, Pure-Iron, 37.
Enamelling Castings, Some Notes on, 246.
Enamelling of Cast Iron, Vitreous, 123.
Enamelling, Vitreous, 181.
Estimating, Application of Overhead Charges to Foundry, 160.

F

Falkirk Light-Castings Industry, 51.
Ferro-Silicons by the Volumetric Method, Determination of Manganese in, 311.
Fettling-Shop Developments, 145.
Ford Blast Furnace at Dagenham, New, 69.
Foundries—and Foundries, 5, 29.
Foundry in the Electrical Industry, 53.
Foundry, Indian State Railway, 85.
Foundry Industry, Agriculture and the, 50.
Foundry, Laboratory and the, 412.
Foundry Pig-Iron Trade in 1930, Conditions in the, 44.
Foundry Practice in Great Britain, Recent Developments in Cast Iron and, 436.
Foundry Practice, Some Developments in Modern, 259, 277.
Foundry Research in 1930, 57.
Foundry Selling Practice, 158, 179, 190, 205, 247, 280, 319, 345, 360.
Foundry Trades' Equipment and Supplies Association, Fifth Annual General Meeting, 230.
Foundryman Honoured, Prominent, 2.
French Foundry Industry in 1930, 46.
French Foundry Research Institute, 386.
Furnace, Melting Grey and Malleable Iron in the Indirect-Arc, 391.

G

Gating and Pouring of Castings, 369.
Gating Iron Castings, 242.
Gating, Some Notes on, 174.
German Foundry Technical Association, Annual Meeting, 304.
German Iron and Steel Industry, 28.
German Iron Foundries in 1930, Position of the, 67.
Glenfield & Kennedy, Limited, Heavy Shops of, 27.
Graphic Calculation of Cupola Mixtures, with Special Reference to "Perlit" Cast Iron, 351.
Grey Cast Iron, Effect of Carbon and Silicon on the Growth and Scaling of, 338.
Grey Cast Iron to Gas at High Pressures, Permeability of, 194.
Grey Iron, Brackelsberg Process for the Production of, 287.
Grinding Wheels, 160.
Growth and Scaling of Grey Cast Iron, Effect of Carbon and Silicon on the, 338.
Growth of Cast Iron, Factors in the, 353.
Growth of Grey Cast Iron, Permanent, 312.

H

High-Temperature, High-Pressure Service, Some Considerations and Tests for Cast Materials for, 399.
High-Temperature Service, Cast Alloys for, 387.
Holley Permanent Mould, 290.

I

Inclusion in Cast Iron and its Relation to Manganese and Silicon Content, New Type of, 335.
Indian State Railway Foundry, 85.
Indirect-Arc Furnace, Melting Grey and Malleable Iron in the, 391.
Induction Furnace, Refractory Materials for the, 352.
Institute of British Foundrymen:—
Annual Banquet at Birmingham, 429.
Annual Convention at Birmingham, 415.
Annual Convention, Members Attending, 428.
Birmingham Branch, Annual Dinner, 143.
Birmingham Branch, Annual Meeting, 320.
Birmingham Branch, Works Visit to Coventry Malleable & Aluminium, Limited, 230.
East Midlands Branch, Annual Dinner, 206.
East Midlands Branch, Annual Meeting and Short-Paper Competition, 159.
Election of New Members, 66, 304.
Lancashire Branch, Annual Dinner, 95.
Lancashire Branch, Annual Meeting, 281.
London Branch, Annual Dinner, 7.
London Branch, Annual Meeting, 303.
London Branch, Visit to Messrs. Henry Ford's Foundry, Cork, 231.

Index to Volume XLIV.

Spelter Market in 1930, 78.
Steel, Deoxidation of, 114.
Steel-Foundry Industry in 1930, British, 45.
Steel Mark, British, 207.
Steel, Nitrogen in, 302.
Steel Sleepers, 309.
Steel Standardised, Symbols for Chrome-Nickel, 58
Steel Tub Wheels for Use in Mines, 327.
Steels, Fabrication of Acid-Resisting, 10.
Storekeeping, Some Notes on, 130.
Stove, Novel Drying, 385.
Sulphur in the Cold-Blast Furnace, Elimination of, 154.
Synthetic Sand, Some Observations on the Preparation and Use of, 367.

T

Tantalum, 366.
Testing Castings, 207.
Tests for Cast Iron, Commercial, 273.
Tests for Cast Materials for High-Temperature, High-Pressure Service, Some Considerations and, 399.
Thermal Conductivity of Cast Iron between 0 and 100 deg. C., 405.
Thwates, Ironmonger and Founder, of York, Concerning Mr. William, 25.
Tub Wheels for Use in Mines, Steel, 327.

V

Varnishes, Pattern-Shop, 77.
Venting of Dry-Sand Moulds, 173.
Vitreous Enamelling, 181.
Vitreous Enamelling of Cast Iron, 123.
Volumetric Method, Determination of Manganese in Ferro-Silicons by the, 311.

W

Welding Cast Iron, Pure-Iron Electrodes for, 37.
Welding, Steel-Foundry, 121, 162.
Welds, Strength and Structure of Superimposed, 26.
Weird Piece, 161.

X

X Ray Examination of Castings, 23.
